

## Tetra Seminar

### “The Four Pillars of Laban Movement Analysis”

with Carol-Lynne Moore and Cate Deicher

9 AM – 5 PM  
March 27-29, 2014

Movement Room  
Dance and Theatre Building  
University of Colorado, Boulder, Colorado

#### Seminar Content

This seminar serves as a refresher course for movement analysts who want to deepen their grasp of core concepts and develop greater confidence as observers. The Tetra also provides an introduction to Laban Movement Analysis for those new to the field of movement study.

Each day we warm up with Bartenieff Fundamentals, then explore effort, space, and shape through structured improvisation and choreographic experiences. Studio work incorporates live observation to clarify core concepts in Laban Movement Analysis.

Each evening participants will be given links to pre-screened video examples of concepts taught during the day. Participants are asked to bring a laptop, tablet, or smart phone for accessing these additional observation examples via the internet.

In addition, participants receive the newly published text, *Introduction to Laban Movement Analysis* by Carol-Lynne Moore.

#### Seminar Instructors

**Carol-Lynne Moore**, PhD, has been involved in the field of movement analysis for over three decades, working closely with Laban luminaries such as Irmgard Bartenieff and Warren Lamb. She has taught in 25 certificate programs in the US and Europe, most recently developing the Graduate Laban Certificate in Movement Analysis at Columbia College Chicago. Her particular expertise is teaching movement observation. Publications include *Beyond Words*, *The Harmonic Structure of Movement*, *Music, and Dance According to Rudolf Laban*, and *Movement and Making Decisions*.

**Cate Deicher** founded the Department of Dance and Movement Studies at Alverno College in 1988 and served as faculty, department chair, and Fine Arts Dean during her tenure. She currently serves as faculty and Academic Coordinator for the Graduate Laban Certificate in Movement Analysis at Columbia College Chicago. She also applies the Laban work to the design and teaching of movement-based courses for artists and designers at the Milwaukee Institute for Art and Design, and for nurses and architects at University of Wisconsin-Milwaukee.

#### Practical Details – Getting to Boulder

Participants coming from out-of-state should fly into Denver International Airport.

Shuttle service to Boulder is available through Super Shuttle, [www.supershuttle.com](http://www.supershuttle.com), or Green Ride Boulder, [www.greenrideboulder.com](http://www.greenrideboulder.com). Both services make stops at most Boulder hotels.

## Getting Around in Boulder

The University of Colorado is adjacent to the walkable downtown area of Boulder. The hotels listed below are either within walking distance of the University, or readily accessible via Boulder's excellent public transportation system.

For those driving, pay parking is available on campus in the Euclid Avenue lot.
