

Octa Seminar

“Discovering the Dynamosphere”

with Carol-Lynne Moore, PhD, CMA

9 AM – 4:30 PM

August 7 - 9, 2014

Dance Studio 325

Dance and Theatre Building

University of Colorado, Boulder, Colorado

Seminar Content

“Discovering the Dynamosphere” provides rich movement experiences and new perspectives on Rudolf Laban’s effort theories. Course material is relevant for dancers, choreographers, actors, directors, dance therapists, and all those interested in the psychology of movement.

The dynamics of human movement are explored through structured improvisation, choreographic and theatrical experiences, and theoretical discussion. Laban’s notions of human effort—motion factors, states, and drives – provide core material. Exploration is expanded with reference to Vera Maletic’s work on phrasing and Yat Malmgren’s work on movement psychology. In addition, little known models of effort patterning discovered by Dr. Moore in the Laban Archive are presented to provide fresh material for movement explorations and discussions.

In addition, participants receive a pre-publication excerpt of the forthcoming college text, *Meaning in Motion: Introducing Laban Movement Analysis* by Carol-Lynne Moore.

Seminar Instructor

Carol-Lynne Moore, PhD, CMA, has been involved in the field of movement analysis for over three decades, working closely with Laban luminaries such as Irmgard Bartenieff and Warren Lamb. She has taught in 25 certificate programs in the US and Europe, most recently developing the Graduate Laban Certificate in Movement Analysis at Columbia College Chicago. Publications include *Beyond Words, Movement and Making Decisions*, and *The Harmonic Structure of Movement, Music, and Dance According to Rudolf Laban* – the only major publication addressing the mature theoretical explorations of Laban.

Practical Details – Getting to Boulder

Participants coming from out-of-state should fly into Denver International Airport.

Shuttle service to Boulder is available through Super Shuttle, www.supershuttle.com, or Green Ride Boulder, www.greenrideboulder.com. Both services make stops at most Boulder hotels.

Getting Around in Boulder

The University of Colorado is adjacent to the walkable downtown area of Boulder. The hotels listed below are either within walking distance of the University, or readily accessible via Boulder's excellent public transportation system.

For those driving, pay parking is available on campus in the Euclid Avenue lot.
