### The Workshops

#### ***Revitalize on Saturday, December 6***

Morning workshop (9 AM – Noon). A movement refresher focused on effort and shape. Rev up your states and drives and expand your shaping vocabulary. Experiment with affinities and disaffinities. Gain insight into the Law of Proximity and explore modulated phrases that embody Laban's notions of effort harmony.

Afternoon workshop (1:30 – 4:30 PM). A movement refresher focused on space and body. Experience how Bartenieff Fundamentals link with space harmony. Explore transverse and peripheral scales and learn how Laban used symmetry operations to create Choreutic forms.

#### ***Harmonize and Labanize on Sunday, December 7***

Morning workshop (10 AM – 1 PM). An advanced workshop for movement analysts. This session introduces new theory drawn from Laban's unpublished writings. Discover how Laban was developing novel effort and spatial forms. Experience in a practical way how these advanced movement concepts can be applied dramatically and choreographically.

Afternoon Lecture-Demonstration and Book Signing (2 – 4 PM). Celebrate the publication of Carol-Lynne Moore's new college textbook. With Carol-Lynne and Cate as guides, learn "10 New Ways to Bring Laban Theory to Life in the Classroom and Studio." Enjoy light refreshments and a chance to visit with colleagues. Then take away your own signed copy of *Meaning in Motion: Introducing Laban Movement Analysis*.
